Staff Product Manager, Plaid

Aug 2021-Oct 2025, San Francisco

- Owned Link / Link conversion, the surface that consumers use to connect bank accounts with fintech customers, and a key business metric.
- Built and scaled the Link Remember Me (https://plaid.com/docs/link/remember-me/) product from 0 to 1, grew user enrollments from 0 to 80M+, and customer traffic and data partner traffic enablement from 0 to 80% and 55% respectively, driving 8%+ incremental conversion lift worth $24MM+ incremental ARR, owned product vision/strategy.
- Further drove 3%+ conversion lift worth $9MM+ incremental ARR via improvements to search (infra/rankings/relevance), authentication (passkeys/device fingerprinting/security notifications/silent network authentication, risk based authentication, etc), and OAuth integration improvements.
- Top 3 PM interviewer for 2022. Ran 20+ onboarding sessions for new hires, and helped build PM growth guide for the PM org.

Senior Product Manager, Twitch

May 2019-April 2021, San Francisco

- Ads team, worked on creator ad experience, ad supply, new ad format teams.
- Increased ad inventory on the platform by >20% worth an incremental ~$7.2MM/month by identifying and patching potential exploits on the Twitch platform, thereby enabling ads to be shown to adblock users.
- Built Multiplayer Ads (https://www.theverge.com/2020/11/16/21570243/twitch-multiplayer-ads-cpm-bits-streamer) from 0-1, a new ad format where viewers can engage with the ad to earn rewards for the community. Achieved an ad engagement rate of ~20% with 10+ advertisers, and +38% in unaided brand awareness amongst advertisers.
- Launched Ads Manager (https://help.twitch.tv/s/article/ads-manager), an automated ad running tool, to help increase ad running amongst the biggest creators on Twitch. Creator ad running metric increased from ~50% to 81% for the affected cohort.

Product Manager, TripAdvisor

Nov 2018-Apr 2019, San Francisco

- Led the Viator Search team (part of TripAdvisor Experiences), the largest online provider of activities and experiences for travelers.

- Made the company $1M+ in incremental revenue by increasing Search CTR by 11%, and reduced zero result rate by 64% with a series of Query Understanding and Rankings projects.
- Recognized by the Company President for ‘remarkable results’ for improvements to Search.

Product Manager, Yelp

Feb 2016-Oct 2018, San Francisco

- Cash Back team. Built and scaled the Cash Back (https://www.yelpblog.com/2017/09/1-million-paid-yelpers-yelp-cash-back) feature (business product to help drive customer loyalty) from MVP to $30M+ transaction volume and $2M+ cashback given to Yelp users in a year.
- Transactions team. Increased monthly food order volume by 3% by reducing GrubHub API errors by over 40%. improved food ordering search relevance and enabled platform partners to be Merchant of Record.
- Search team. Improved relevance/rankings on search and location autocomplete, built the experience for discovering businesses inside airports and malls (https://www.yelpblog.com/2016/12/now-searchable-yelp-bizzes-inside-airports-malls), and built a unified location database for the company.
